MAJOR RESIDENTIAL PROJECTS LIST

This list contains information on residential projects in the development process during the six-month reporting period and reflects building permits issued 7/1/2010 through 12/31/2010. Typically, Development List Updates occur twice each year, in January--reporting on the last half of the previous year--and in July--reporting on the first half of the current year.

The City of Santa Maria Web Page at <http://www.ci.santa-maria.ca.us/54328.shtml> provides access to prior project lists from 1999 to present. You are free to photocopy all or part of this publication. You need not secure permission; just copy it accurately and cite the City of Santa Maria, Community Development Department, as the information source.

The information included here is a public service. It represents a standardized summary of information contained in City files and descriptions are subject to interpretation. The information is generally accurate; however, changes may occur in the status of any project at any time. *

SUMMARY

- Notes:
- 1 Approved projects include lots in final subdivision tracts (or those recorded phases of tracts) and projects approved by the Planning Commission or Zoning Administrator
 - 2 Projects pending review include lots within tentative tract maps, subdivisions that are pending Planning Commission review, and other projects that have not received discretionary permits.
 - 3 Special Needs units target groups that are identified in the Housing Element of the General Plan. These groups are: Disabled, Farmworkers, Female Head of Households, Homeless, Large Families, Seniors, and Students.

* Instructions for Using this List for CEQA Documents:

The Congestion Management Plan (CMP) requires local agency planning staff to submit development activity information (i.e. approved projects, building permits issued) annually to SBCAG and neighboring jurisdictions. This process ensures that regional impacts are being considered through the CEQA review process and that bordering cities and unincorporated areas are not adversely affected by larger development projects. Accordingly, cumulative impact analysis for EIRs and other CEQA documents (including Traffic Studies) should supplement this List with corresponding information from bordering cities and unincorporated areas. Please check with Community Development and Public Works staff to define the "cumulative impact study area", before initiating any cumulative impact analysis.
