

CITY OF SANTA MARIA

Storm Water Management Program

Tell us what you think!

In an effort to increase public awareness and encourage public involvement with storm water runoff pollution prevention, the City of Santa Maria invites the public to review and comment on its Storm Water Management Plan and this website. The City has been implementing its Storm Water Management Plan since October 2008 and will submit its first annual report to the Central Coast Regional Water Quality Control Board at the end of 2009 and annually thereafter.

If you are reporting a spill or an illicit discharge, please provide as much information as possible including location, type of spill or discharge, and responsible party (if known). _____

Do you think the City adequately addresses storm water runoff pollution prevention? Please tell us what improvements to the program you'd like to see. _____

Have you changed any of the practices around your home or place of business in order to prevent pollution to the City's storm drain system? If so, what have you done differently? _____

Please submit your comments and concerns - by mail, email, phone, or FAX. Your City of Santa Maria Storm Water Runoff Pollution Prevention Contact Person is:

Ellen M. Pritchett
2065 East Main Street
Santa Maria, CA 93454
